

Partners4results data warehouse allows you to keep all your districts assessment data in one place. We offer a wide variety of reports and charts for your district to choose from.

Features of Data Warehouse

- ➔ Internet-based application allows access to district data at any time.
- ➔ Reports can show standardized and local assessments.
- ➔ Ability to disaggregate data by any demographic data.
- ➔ Reports and charts can drill down to a student level, to see an individual student history.
- ➔ Reports can be color coded to show proficiency or level scores.
- ➔ All reports can be exported to excel.
- ➔ All charts can be printed to a PDF document for easy printing.

P4r Data Warehouse can store more than just assessment data!

Some other items can be:

- Demographic data
- Attendance Data
- Discipline Data
- Special Program Tracking
- Intervention Reporting

Variety of Reports and Charts are Available:

- Most Recent Data Reports
- Historical Data Reports
- Highest Score Report, great for ACT data!
- Student Progress Reports on NWEA data
 - Performance Level and Proficiency Analysis Charts
- Subtest Analysis Reports and Charts

Our Mission:

We partner with districts to improve student performance through curriculum and assessment alignment, national research, personal relationships, world-class technology and support.
