

Why Surveys?

Today, public educators are putting great emphasis on input and involvement from parents, teachers, and students. Partners4results' Surveys Made Simple is an online tool that makes tracking this input easy! Our world class software allows you the ability to create and administer a wide range of surveys, whether they are as simple as a homecoming poll or as complex as student and teacher surveys.

Key Features:

- ➔ Allows users to create, edit, store and administer surveys to any group desired.
- ➔ Survey software can be used for a variety of survey types.
- ➔ Internet-based software allows access 24-7.
- ➔ Once surveys are scanned into the system, reports are electronically generated which report data by categories determined by the district, i.e., Safety, Communication, Etc.

It's easy to use!

Types of Surveys

Student Surveys - Find out how students feel about their school and learning environment.

Course Evaluations – Find out how students feel about their courses.

Parent Surveys – Is the school district meeting the expectations of parents in the district?

Faculty Surveys – How do the teachers feel about the school administration and school environment?
